

## HazClass Kit 3 WMD test kit                      Kit-3 \$1995.00/kit

### HazClass Kit-3 WMD

The HazClass® kit is designed to provide first responders a rapid and easy method to determine if unknown or suspicious materials present a possible chemical, radiological or biological hazard to the responder, population or surrounding environment. The procedure is not designed to identify the substance, but to determine if a possible hazard may exist. The HazClass® kit may be used by any personnel with basic HazMat training skills. The HazClass® kit can be used in any situation where hazardous materials may be of concern.

The HazClass® kits have been used by first responders for such incidents as: Abandoned containers or drums, illegal drug operations, chemical inventories, household chemical cleanups, unknown powders, suspicious materials, to confirm labeling, roadside dump sites, to determine bulking compatibilities, to check decon and PPE compatibility.

The HazClass® kit can be used for the determination of EPA-RCRA Characteristic Hazardous wastes which are Ignitability, Corrosivity and Reactivity. The HazClass® kit will help in the determination of certain DOT classes, material compatibilities, and labeling for transportation and disposal.

The HazClass® kit is designed to classify the unknowns into the following qualitative categories:

- Corrosive Acid
- Corrosive Acid Oxidizers
- Corrosive Bases
- Corrosive Base Oxidizers
- Flammable Liquids
- Combustible Liquids
- Heat Sensitive Materials
- Oxidizers
- Water Reactive Materials
- Air Reactive Materials
- Reactive Sulfides
- Reactive Cyanides
- Chlorinated Hydrocarbons
- Sugars
- Starches
- Biological Agents(protein)
- Explosives
- Radiological

- HazClass kits are designed to be left on vehicle or in facilities in all climates around the world,
- Reagents and test strips updated annually,
- Case dimensions are 21.20" x 16" x 8.30". Approximate weight is 20lb.

The HazClass® kit has been used by many personnel and departments throughout the United States and Internationally. Some of the domestic organizations currently using the HazClass® kit are California Highway Patrol, DEA, FDNY-HazMat, Colorado State Patrol, Sheriff's departments, Police Departments, Environmental Cleanup companies, Health Departments, governmental agencies and many others. Internationally the HazClass® is used in countries such as Canada, UK, Australia, South America, Iraq and others.
